Money to loan in sums of \$500 and over on cal estate. J. F. Cooren, Atty-at-law.

### EXCURSIONISTS.

A Large Party of Land Seekers Looking for Investments in North Texas.

A party of about ninety excursionists come to the city Saturday aftermoon in aspecial car from Pennsylvania, Ohio, Michigan, Minnesota, Illinois, Wisconsin, Iowa and other Northern and Eastern states. The party is composed of gentlemen who are seeking investments in the farming lands of Texas, and is in charge of Mr. Gaston Meslier, special passenger agent of the Gould system, accompanied by Messrs. O. J. Fowler, Eastern passenger agent of Utica, New York, and J. D. McBeath, New England passenger agent of Boston, Mass. Among the excursionists are Messrs. O. G. Murphy, a heavy real estate agent of Philadelphia; H. Gordon and Dr. Headley of Minnesota; John Kline of Des Moines, Iowa; A. E. Adam of El Carte, Ind.; Prof. W. H. DeLaMartyr and H. Sprecker of Madison, Wis; W. L. Thomas of Ogdensburg, New York; J. B. Cattell and P. H. Kling of Segourney, Iowa, and other prominent gentlemen from the Northern and A party of about pinety excursion-Work; J. B. Catteel and P. H. King of Seguriney, lowa, and other prominent gentlemen from the Northern and Eastern states. The excursionists went west last night and will stop at Alikense, Colorado City and Big Springs. From the latter point they will return to Fort Worth on Thursday our cutering the eneming lands. They express themselves as highly pleased with the soil and climate of the Lone Gar state. Most them are men of moderate means and practical farmers, When the party returns to this city on Thursday our enterprising real estate men would do the proper thing to meet them and show them the advantages of the red of the red of the red of the sanchion. Her feet were tied of the sanchion. Her feet were tied of the form of the sanch to the sanch to the proper thing to meet them and show them the advantages of the red of t ages offered to farmers in Tarrant county. The party numbered 125 per-sons, when it left St. Louis, but has now dwindled to ninety. It may be interesting to state in this connection that Saturday morning an

excursion party of twenty-five persons passed through here bound to San Francisco from Chicago, heing the first regular excursion over the Gould system to California this year. The GAZETTE man had the pleasure of meeting Mr. Meslier, who had the first named party in charge. He states that fully 800 persons have taken the benefit of these excursions, which will be continued until May and resumed again in the fall. Mr. Meslier is an accomplished gentleman and enthusiastic over the wonderful progress and prosperity of Texas.

What's Coming.

Bertha Welby, daughter of the man that exposed the plot by which an attempt was made in the anti-Masonry days to palm off the body of an unknown for John Morgan, the exposer of Masonry, will be here in the course of the next few days. She is of the emotional order, and continues to gain in public favor. She has had good houses everywhere this season, though she has taken in a large extent of territory. She travels on her merit and ritory. She travels on her merit and not on her father's fame.

men's Building and Loan association and the Mechanic's Building and Loan association are now in full blast and will soon turn their acfall blast and will soon turn their accumulating funds loose among the
workingmen of the city, and as only a
small part of the stock of these associations is now in the market, those
who have not already taken stock
should do so immediately. The board
of directors of the Mechanic's association will meet to night at the office of
Daggett, Martin & Co., next door to
St. John hotel Main street, when the
boom will begin in carnest. Stockholders should be present.

At 12 o'clock Saturday night in this ty, of consumption, Katle Sullivan, the twenty-eighth year of her age, uried in the Catholic cemetery; ser-nce by the Catholic priest. St. Clair, Missouri, papers please

One of the Largest Houses Ever As sembled in the Opera House

An Evening of Strange and Unexplainable Results that Excited General Admiration.

Yesterday was a dull, gloomy day. All day long the rain fell slowly upon the earth, and before evening the streets, which werevery muddy in the morning, had become glistening lakes, very suggestive of the beautiful city at the head of the Adriatic. Notwith-

into a feverish quiet by the appearance of Mr. Bratton, who first requested the silence during the evening of that nuisance the small boy, as this was not to be considered a show. He then gave a brief biographical sketch of Miss Anna Eva Fay, the lady.

He said they took what was called, to-day, the middle ground. In explanation there was a class called spiritualists, who attributed all the results

THE CABINET.

This was a plain four-post affair, hung all around with curtains. The front curtain was drawn aside, showing a small stool in the center, that he lifted to show that it was only a stool. He asked that a committee of two gentlemen be named by the audience to come forward to the stage. Mr. H. O. Perkins, Dr. T. J. Beall, Colonel Morten, Dr. W. A. Adams, Col. Hoggsett, John Nichols and Dr. H. W. Moore, were called for, and the last named two went upon the stage and duly made the examination, and pronounced the machinery of a weak

other end of the rope. A tamborine, hand bells, and harmonicon were now placed in her lap and the curtain closed. The bells, tamborine and

harmonicon at once BEGAN SOUNDING.

and so continued for two minutes. The curtain was then drawn aside and and wine the currain was drawn it became tied, and was exhibited to the audience after being cut. A glass of water was placed in her lap and almost immediately afterward the glass was taken from between her lips. The gentlemen said they saw no way for her to get her mouth to the glass. The andience was now asked. audience was now asked to select the handsomer of the two gentlemen to sit with Miss Fay, and Dr. Moore was taken. A handkerchief was placed on his head, his hands on a tamborine in her lap, and a guitar on top. A water bucket was placed over his head. While the curtain was drawn, there was music, the guitar being thrust out. When the curtain was drawn aside. there was writing on Dr. Moore's cuff, and on blank paper in the bucket, and Dr. Moore said he felt a hand on his during the time the curtain was drawn. Various names and messages were read from the papers, but none ritory. She travels on her merit and not on her father's fame.

Ada Gray, the well known, will be here soon after Welby.

Baron Seeman, the magician, is booked for this week.

Various names and messages were read from the papers, but none recognized as far as was mentioned. A ring was borrowed and placed in her lap. It at once appeared in her ear. A tamborine was placed under her feet

booked for this week.

Leavitt's Mastodon minstrels will appear here February 28th.

Haywood's Mastodon minstrels will be here March 1st, with a choice reportoire, including "Uncle. Tom's Cabin."

The Building Boom.

The indications point to a building boom as soon as the weather settles and spring opens. A gentleman well posted in real estate matters informs us that contracts have been let for upwards of forty business houses, and that the number of residences can not even be guessed at, owing to the prospects by the building associations for workingmen and mechanics to secure homes of their own. The Workingmen and the Mechanic's Building and the Mechanic's Buildin she was still tied. While the door was being locked again, articles were thrust away from her. A knife was taken through the opening and directions given that she should be cut loose. The box was taken away and the strings around her wrists were found to be cut. This was but a little while after an examination showed her to be still tied securely. Several feats were now performed by Mr. Bratton; then Miss Fay came back. While Mr. Bratton was securely tied in the back of the cabinet, and Mr. Nichola held Miss Fay's hands, there was tapping and writing on the bucket on Miss Fay's head.

Almost Miracullous.

Coats and a vest, a bucket and a chair, were now in some inexplicable way passed upon one of his arms in the cabinet while his wrists were tied securely together and his feet as well. He was afterwards brought out and the knots untied and these articles taken from his arms. His wrists were tied securely together and his feet as well. J. E. Albright and G. W. Livingstaken from his arms. His wrists were city yesterday and called on the Gazerre. ALMOST MIRACULOUS.

## ANNA EVA FAY.

of the ropes.

Mr. Hearne came out, and stiff, close wire armlets, closed at the ends, and a similar helmet were placed on him, and with his hands against his knees, he was tied with a very cage of rope and knots to the chair. He was then pronounced by the committee who did the work, very securely fastened, after Dr. Moore had put on an extra rope. He was tried with instruments, but there was no response. In about five minutes however, there was a cry from within, the curtain was a cry from within, the curtain was drawn aside and Mr. Hearne walked forth, to the wonder and admiration of the audience.

The cabinet was now closed and three

morning, had become glistening lakes, very suggestive of the beautiful city at the head of the Adriatic. Notwiths the head of the Adriatic. Notwith standing, however, the nearly impassable condition of the streets, when of clock arrived a fair andience had already assembled in the opera house and the doors were jammed. Half an hour afterward the audience almost completely filled the house, and before the close of the evening the audience was the third largest ever assembled there, scarcely a seat being vacant. In the growing city of Fort Worth are many disciples of the spiritualistic creed, and these votaries and their friends were largely represented. Many, too, went on account of the fame of the fail lady who was to display her powers, while there were not a few who weat simply to gratify their currosity. Long before Miss Fay appeared there were repeated outbursts of impatient stampling from the eager feet in the galleries.

There was a loud clapping of hands when the footlights were turned on to their full power and the cabinet, with various tables, instruments, &c., appeared on the stage. This was hushed the count of the full power and the cabinet, with various tables, instruments, &c., appeared on the stage. This was hushed the count of the large of the large of the large of the full power and the cabinet, with a county of the full power and the cabinet, with a county of the cabinet was now removed and a careful examination made for a trap-door but none found. During this last great feat, in order to satisfy the audience that the full power and the cabinet, with a county of the full power and the cabinet, with a county of the full power and the cabinet, with a county of the full power and the cabinet, with a county of the full power and the cabinet, with a county of the full power and the cabinet, and the cabinet was now removed and a careful examination and for a trap-door but none found. During this last great feat, in order to satisfy the audience that the full power and the cabinet, with a cabinet was The cabinet was now closed and three chairs placed in front. Mrs. W. T. Wilsot, by invitation, took one, Mr. Nichols the second and Miss Fay the third. Hands were superposed and a blanket pinned over them against the cabinet. An examination showed that there was nobody in the cabinet. Pieces of paper were knocked off Mrs. Wilson's head through the curtain, garious phases through the there were repeated outbursts of impatient stamping from the eager feet in the gatteries.

There was a loud clapping of hands when the footlights were turned on to their full power and the cabinet, with various tables, instruments, &c., appeared on the stage. This was hushed into a feverish quiet by the appearance of Mr. Bratton, who first requested the us in our dreams. By request the Fort Worth public will again have an opportunity of seeing Miss Fay at the opera house in about two weeks. She will give one or two seances in the city also by invitation. If the GAZETTE has the opportunity of being present it may yet be able to declare After Eva Fay, the fairy,

He said they took what was called, to-day, the middle ground. In explanation there was a class called spiritualists, who attributed all the results obtained by them to spiritualistic sources; the scientists attributed them to force; while there was another class that though these results were simply produced by a black art or magic. Their middle ground was that of the scientists. He then called attention to

THE CABINET.

This was a plain four-post affair, hung all around with curtains. The front curtain was drawn aside, showing a small stool in the center, that he lifted to show that it was only a stool. He asked that a committee of two gentlemen be named by the audience to come forward to the stage. Mr. H. O. Perkins, Dr. T. J. Beall, Colonel Morten, Dr. W. A. Adams, Col. Hoggsett, John Nichols and Dr. H. W. Moore, were called for, and the last named two went upon the stage and duly made the examination, and pronounced the machinery of a weak construction. They then took their seats upon the stage. Mr. Bratton then requested entire silence on the part of the audience during the evening. He said he would leave it to the audience to conclude for themselves whether there were spiritualistic manifestations or not. He promised that the lights would not be turned out during the evening at all.

Miss Fay was then introduced and by request the gentlemen proceeded to the her wrists with strips of cloth, which were then sewed. This process pro-

Arkansas for this special occasion, the guests were invited to join in the mazy dance, which was kept up till the wee sma' hours.

The GAZETTE acknowledges a kindly remembrance from the worthy couple in a stand of delicious cake and some fine wine.

## City Hospital.

To the GARRTTE. Some ten days ago this city institu-tion underwent a change in its management; now being under the control of Mr. Albert Walker, a former milk vendor. Mr. Walker has placed a splendid nurse in charge, and is doing all that a man can do for the comfort of his patients, supplying them with plenty of good food, cooked in a plain manner. cooked in a plain manner.
Too much praise cannot be accorded to the city physician, Dr. L. B. Slauter, who uses all of his medical knowledge for the comfort of the "city sick."
The writer of this "local" was a patient in the hospital for two weeks, and now returns many thanks to Dr. Slauter and the nurse. For awhile there were four women patients, two with babies under a month old. Twelve men, all doing well, now just half the number.

## Attempted Burglary.

An attempt was made last night to rob the store of D. Schwartz & Co., corner Houston and Second streets. About 10 o'clock some young men who were passing saw a man in the store and stopped to look in through the door windows. On seeing them stop the burglar ran out the rear of the store and the gentlemen fired several shots at him in the alley by the bank but did not succeed in stopping him. It is not known if any thing was taken

## To Whom it May Concern.

On the first day of May I will have a grand drawing for a handsome gold watch; each individual who is now taking the GAZETTE, or who will subscribe within the next thirty days, will have a chance in the drawing free of charge. None will hold tickets but these those who pay promptly. Subscribe at once and secure a chance. JAS. T. MELTON,

## Yesterday Mr. J. G. Poilard was pre-sented by his wife with a pair of fine girls and is almost too happy to notice his best friends.

City Circulator.

### THE GREAT FLOODS.

Ohio Valley.

Returning to Desolated Homes-Relief for the Sufferers.

Wheeling, W. Va, February 10—The river has receded more slowly than expected, and part of the city and country above and below is still under water, though the inhabited portion for the most part is forsaken by the water. The disappearance of the water reveals the extent of the rayages of the flood; the sight exposed to the eye to-day is indeed disheartening. Huge rocks, board piles, trees, driftwood and small shantles every safe to many street. board piles, trees, driftwood and small shantles cover parts of many streets, and hundreds of large houses and barns are gathered at points where the surface of the waters was obstructed by trees. Fifteen houses are jammed up against each other at the south end of the city. The Baltimore & Ohio track between here and Benwood was covered with building and drift, which were pulled to pieces by the engines to between here and Benwood was covered with building and drift, which were pulled to pieces by the engines to clear the track. The first mail since Wednesday, weighing four tons, has arrived. Boats and a few trains on the roads least damagest have opened communication with the outside world. Every blanket in the city has been distributed to the homeless sufferers, but there is a great scarcity of bed-clothes. The country people on both sides of the river are doing their utmost to supply the needy with provisions. Wagons loaded with provisions have been arriving here and Benwood, Bellaire, Bridgeport and Martin's ferry all day from points as far back as twenty miles south. Probably 29,000 people are to be fed and clothed from Wellsburg to Mountsville. At Martin's ferry last night, Dr. Hineman, now under ball for abortion, was caught robbing a flooded store, and was beaten nearly to death. He is missing to-day, much to the sorrow of his bandsman.
